WaterSMART Environmental Water Resources Projects

On Thursday, April 25th at 2 pm MDT Reclamation's WaterSMART program will host a webinar to discuss the Environmental Water Resources Projects funding opportunity, which was posted to [grants.gov](https://www.grants.gov) on April 18th, 2024. The funding opportunity supports collaboratively developed projects that provide significant ecological benefits, including water conservation and efficiency projects, water management and infrastructure improvements, river and watershed restoration, and nature-based solutions implementation. The webinar will include information regarding eligibility, program requirements, the selection process, and feature a question and answer session. The webinar will be recorded and available for those who are unable to join live using the same link below.

Interested individuals can use this link to join the webinar: [Join Webinar](#)

Applications for the Environmental Water Resources Projects are due by June 18th, 2024.
